CAREER SUMMARY

Experienced Full Stack Web Developer, I possess excellent problem-solving, communication, and teamwork skills. I provide exceptional results to clients by continuously staying updated with the latest trends and technologies in web development.

TECHNICAL SKILLS

- **Front End** - HTML, CSS, JavaScript, React.js, NEXT.js Bootstrap, ECMAScript, Redux, Tailwind
 - **Back End** - PostgreSQL/MySQL, Node.js, TypeScript, Rest API, Docker, Express, Firebase, MongoDB
 - **Project Management** – Git, GitHub, Slacks, ClickUp, Microsoft Office Suite, Google Suite
 - **UI/UX** - Balsamiq, Figma, Draw.io
 - **Development Tools** - WebStorm, Visual Studio Code (VSCode)
 - **Security Clearance:** Secret Level (2019-present)
-

WEB DEVELOPMENT PROJECTS

Netflix Clone | GitHub Repository | Apr 2023

- Developed a fully responsive movie application utilizing Next.js, TypeScript, Tailwind CSS, and Firebase v9.
- Extracted movie data from the TMDB API, ensuring responsive and dynamic display of content.
- Integrated React Player to fetch and dynamically present movie trailers from YouTube within a Material UI modal.
- Implemented secure login and sign-in functionality using Firebase authentication.

Airbnb Clone | GitHub Repository | Mar 2023

- Created an Airbnb clone with Next.js 13, featuring responsive design, multiple authentication methods, and property management.
- Implemented image uploading, form validation, calendar integration, and booking/reservation systems.
- Enabled guest/owner reservation cancellations and pricing calculation.

Dog Park (social media website for dog owners) | GitHub Repository | Nov 2022

- Worked remotely with a team to develop a functional Dog Park Website using multiple programming languages, including React, TypeScript, Node.js, PostgreSQL, and Restful API.
- Designed and built 6 entities on the backend (profile, post, park, comment, follow, likes) for the website.
- Integrated React.js and Redux to connect the backend with the frontend.
- Utilized GitHub and Click Up for effective coordination and task management with the team.
- Containerized the website with Docker for efficient deployment and integrated a JSON file of parks in Albuquerque into maps for a comprehensive database.

Portfolio | GitHub Repository | 2023

- My personal website showcases my expertise in programming and serves as a repository for the source code and websites pertaining to all my projects.
-

WORK HISTORY

Frontend Simplified, Frontend Developer Intern, (01/2023) - (4/2023)

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions, and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination, and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.
- Utilized debugging best practices using Google Chrome inspect element tooling.

Deep Dive Coding, Full Stack Web Development, Albuquerque, NM, (10/2022) - (12/2022)

- Developed and deployed full-stack web applications using HTML, CSS, JavaScript, React, Bootstrap, TypeScript, Express.js, PostgreSQL, Node.js, and Restful API as part of a rigorous, 10-week mobile-first bootcamp with a focus on the PERN stack.
- Collaborated effectively with a remote team using Git and GitHub, along with Agile methodologies and various project management tools such as Click Up, Google Docs, Figma, Slack, and Zoom.
- Designed visually appealing and intuitive UI/UX using industry-standard tools such as Draw.io, Figma, and Balsamiq.
- Developed REST APIs to create an efficient and scalable architecture, allowing for seamless data display and management.
- Strategically designed and implemented structured database systems using Draw.io ERD diagrams.
- Streamlined deployment processes by utilizing Docker containerization and debugging backend codes using insomnia to imitate the browser.

New Mexico Army National Guard Soldier & Operations Experience:

Military Police, Albuquerque, NM (04/2019-Present)

- Completed 19-week Advanced Individual Training (AIT) and efficiently responded to safety and security concerns.
- Upheld ethical and legal standards while working with diverse groups to protect from abuse and harassment.

Operation Allies Welcome, Fort Pickett, VA (10/2021-04/2022)

- Conducted security checks and enforced regulations with attention to detail and adherence to protocols.
- Coordinated effective communication between US Marine Corps, DHS, Federal Air Marshals, and Federal Protective Service.

Covid-19 Operation, Task Force Raptor and MEDOPS, Belen, NM (10/2020-07/2021)

- Conducted free COVID-19 tests and vaccination drives in hotspots and rural areas, focusing on high-risk individuals.
- Collaborated with cross-functional departments to increase vaccination rates and ensure efficient vaccine administration.

EDUCATION

Certificate of Completion, (2022), Deep Dive Coding Full Stack Web Development Bootcamp – CNM Ingenuity, Albuquerque, NM

Link to the Certification: certifications.cnm.edu/certificate

Business Administration - Major, (2023), Central New Mexico Community College, Albuquerque, NM
